Spain – Royal Decree 1383/2002 on ELV management

Full title:	Royal Decree 1383/2002 of 20th December, concerning the management of end-of-life vehicles (BOE n° 3 du 03/01/2003 p. 185) Entry into force: 23/01/2003 <i>(Real Decreto 1383/2002, de 20 de diciembre, sobre gestión de vehículos al final de su vida útil)</i>
Relevant Amendment	Article 3 (e) has been amended by final disposition 2.2 of Royal Decree 509/2007 of 20 th April http://www.boe.es/buscar/act.php?id=BOE-A-2007-8352
Relevant Section	Article 3: Measures of prevention (para. E)
Article 3(e)	Vehicle manufacturers and, where appropriate, manufacturers of materials and equipment are required to: (e) inform consumers about the criteria for the protection of the environment taken into account during the design and construction phase of the vehicle as well as the criteria used to ensure the environmentally sound treatment of end-of life vehicles. Among other things, manufacturers will be obliged to report on: <ol style="list-style-type: none">1. The design of vehicles and their components with a view to their suitability for recovery and recycling.2. The environmentally sound treatment of end-of life vehicles, in particular on how to remove all fluids and dismantling.3. The development and optimisation of ways to reuse, recycle and recover end-of life vehicles and their components.4. The progress achieved with regard to recovery and recycling to reduce the waste to be disposed of and to increase the recovery and recycling rate. Such information shall be included in promotional literature used in the marketing of vehicles.
